

CERTIFICATE OF COMPLETION

42 HEILBRONN CORE CURRICULUM

Robert Marian Dragan

has successfully completed the core curriculum at 42 Heilbronn gGmbH.

The 42 core curriculum covers a range of topics, including programming languages, computer science fundamentals, and software engineering best practices.

Throughout the program, the student exhibited an outstanding ability to acquire the essential skills required for software development.

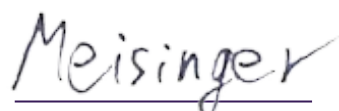

The project-based approach employed by 42 Heilbronn fostered a high level of self-organization, while the peer-to-peer learning model enables to develop critical skills such as delivering constructive feedback and collaborating effectively within a team setting.

We are confident that the student will make valuable contributions to the field of software engineering, and we are excited to see the impact that their acquired skills will have on the industry.
